

LUNCH MENU

“The Olive, *Olea Europaea*, is a species of a small tree in the family Oleaceae, native to the coastal areas of the Eastern Mediterranean basin. The tree and the olive fruit have been a symbol of the Mediterranean for a long time. At Hilton Luxor Resort & Spa, Olives restaurant is the popular Al fresco dining venue for light Mediterranean style snack or a bite between the swimming in the infinity pool. As the sunsets and the stars shine, Olives reincarnates into an elegant restaurant with subdued lighting. View the mountains beyond the Nile and the valleys as they come alive with the lighting.”
